

## FORGER CAUGHT.

**A Man Supposed to be a Commercial Traveler and Hailing Under Several Different Aliases**

**IS UP AGAINST IT GOOD AND HARD.**

A man, giving his name as H. B. Lawes, was arrested one day recently and placed in the Madisonville jail on the charge of pulling the limb of Mr. R. M. Oates, a grocer of Dawson, to the tune of \$50. Since that time four more of his victims have turned up. V. B. Nuckolls, of Guthrie, C. H. Adams, of Elkton, C. M. Dickey, of Corydon, all liverymen, and R. S. Godsey, a hotel keeper of Fordsville, all came to Madisonville and identified Lawes as the man for whom they had each cashed a check for \$50 a few days before.

When the fleeced gentlemen arrived in Madisonville they waited on Mr. Lawes in a body and, although he had removed the hairy appendage from his upper lip, they were all enthusiastically unanimous in pronouncing Lawes as the man who had so successfully worked them for \$50 each.

He appeared at Guthrie about a month ago. Going to the stable of Mr. Nuckolls he announced that he wished to make Allensville and Elkton that day and wanted a driver. Before leaving the stable he presented a check for fifty dollars on the C. H. Blanke coffee house of St. Louis, and asked the boss of the barn to cash it. Nuckolls readily came across with the fifty. Warren drove to Elkton and there put up at the Adams stable. When the driver was ready to return to Guthrie the salesman produced another check for fifty on the same firm and Adams cashed it.

R. S. Godsey, hotel keeper of Fordsville, Ohio county, came to Madisonville Monday morning and identified him. He cashed a check for \$50. Mr. Godsey knows three other men in his section who were taken in for the same amount.

A telephone message was received from the sheriff at Springfield, Tenn., Monday, stating that Lawes was also wanted in that city.

### Open Bird Season Now On.

Tuesday, Nov. 15th, was the first day of the open season and several of our local sportsmen availed themselves of the opportunity to chase the festive quail from his native lair. We understand they were successful in bagging quite a number of birds, and also that they are more plentiful than usual this season, possibly on account of the stringent game laws now in effect.

### Mr. Yerkes Recovers.

Mr. John W. Yerkes, Commissioner of Internal Revenue, has returned to Washington from Louisville, where he was in the hospital with a severe attack of throat trouble for a week before election. His physician says it will be three months before he will be entirely comfortable, but he is at his desk in the Revenue Department.

A herd of deer will be sold in Nashville. Col. J. H. Acklen, State game warden, will purchase the deer and turn them loose to replenish the rapidly disappearing supply in Tennessee. They will be strongly protected by the legislature.

## GREAT SUCCESS

**Was Epworth League Rally—House Filled to Overflowing and Several Turned Away.**

The rally of the Epworth League, at the M. E. Church, South, Sunday night was successful beyond the fondest expectations of the president and other officers. The house was filled to its utmost capacity, even the standing room being taken, and many were turned away at the door. Twenty-nine new members were added to the League and a long stride upward and onward was taken.

The talks of Messrs. Bailey, Ashby and Rambo, of Madisonville, and Burtcher, of Evansville, were plain, effective and to the point, and did the League a vast amount of good. The music and singing were splendid and added much to the enjoyment of the audience.

The little church was beautifully decorated with cut flowers, palms and ferns with a large maltese cross in the center, carrying out the League colors, old gold and white.

The officers and members of the League desire, through the columns of THE BEE, to thank the speakers and others who contributed so largely of their time and talent to make the affair a success.

## GOVERNOR BECKHAM

**Names Day for Kentucky to Give Thanks.—Issues Proclamation.**

Frankfort, Ky., Nov. 14.—Gov. Beckham this morning issued the following Thanksgiving day proclamation:

"Commonwealth of Kentucky, Executive Department: Following the action of the President of the United States, I fix Thursday, November 24, as a day for thanksgiving and prayer throughout the Commonwealth of Kentucky. I request that upon that day all of our people shall refrain from their business and worldly cares, and by charitable and religious deeds show their gratitude to Almighty God for His many blessings and bounties to us.

"In testimony whereof, I have hereunto set my hand and caused the great seal of the Commonwealth to be hereunto affixed.

"Done at Frankfort, this 14th day of November, 1904, and in the 113th year of the Commonwealth. By the Governor, J. C. W. BECKHAM.

"H. V. McClesney, Secretary of State."

## WILLIAM HENRY JONES

**WINS IN THIRD DISTRICT**

**Official Count Shows He Defeated Richardson in Congressional Race.**

Bowling, Green, Ky., Nov. 15.—William Henry Jones, of Glasgow, Republican nominee for Congress defeated James M. Richardson, Democrat, by a majority of fifty-three votes, according to complete official returns from every county in the district.

## Married.

Tuesday afternoon at the residence of Rev. A. M. Coenen Miss Amelia Miller, the step daughter of L. D. H. Rodgers, of Madisonville, and Mr. Frank Devoyder, of this city, were united in matrimony. Miss Miller is a charming young lady and has a host of friends in Hopkins county. Mr. Devoyder is the eldest son of J. F. Devoyder, a prosperous merchant of this city, and is a deserving young man. The many friends of the young couple wish them well.

## JEFF MORGAN,

**Slayer of Perd Lutz, Was Released on Bond of \$2,000 at Examining Trial.**

**THE COURT ROOM WAS CROWDED.**

Jeff Morgan, charged with killing Perd Lutz in Madisonville a few days ago, was admitted to a bail of \$2,000 by Judge Bradley Saturday afternoon. Morgan will appear before the February grand jury on the charge of manslaughter.

The examining trial brought out such a large number of people that the county court room was not large enough to accommodate all of them and an adjournment was taken to the circuit court chamber. The trial consumed the entire day and the defendant was not able to make bond until late in the evening, when he left the jail and went to the home of his wife's father, John Hall, a farmer in the Concord church neighborhood.

## MR. WOOD GOES TO LOUISVILLE.

**G. Is Important Position in Traffic Department at General Offices.**

**RUMOR THAT CONDUCTOR BRAMWELL WILL SUCCEED, WITH LARGER DUTIES.**

Mr. W. B. Wood, who has filled to the general satisfaction of the public the position of agent for the L. & N. Railroad company here, or about one year past is to leave us next week to accept an important appointment in the traffic department at the Louisville general office of that company. Mr. Wood is instinctively a traffic man and a persistent worker and is possessed with the laudable ambition to excel in any thing he undertakes. The advance made in railroad work by this talented young college man has so far been rapid. With the encouragement of further promotion in the line of work he likes best, and with the kindly help of friends made among the officials of the company THE BEE believes the success of Mr. Wood's future will be assured. Mr. Wood is the son of Judge W. J. Wood, of Evansville, who was formerly third vice president for the L. & N. Railroad company.

The name of Mr. Wood's successor has not yet been announced but will be shortly as the change takes place next week.

It is said that the new agent will have charge as head of the Earlinton yard as well as the usual duties of agent. This phase of the local situation has been a matter of consideration for some time with the company officials and it is likely the new agent will face these enlarged duties, which will make the position a much more responsible one.

There is an unconfirmed rumor, which appears to have very good basis, that Conductor W. S. Bramwell is to be given the place as general yardmaster and agent. Mr. Bramwell is one of the most trusted and experienced men in the service, having had some years experience in all branches of train service. He has been brakeman, switchman, yardmaster of the Earlinton yard, freight conductor, passenger conductor. For several years he has handled continuously and without rest one of the most difficult passenger runs between Nashville and St. Louis, living in Nashville the while. If Mr. Bramwell comes to the vacancy everybody will know the place is to be well taken care of.

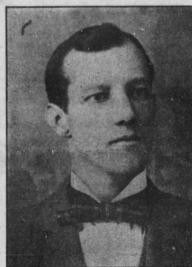

## SMALLPOX IMPORTED.

**Visitor From Pembroke is in Pest House as Suspect.**

A negro named Peterson, who came from Pembroke on Sunday to see his wife, who has lately been staying at Hecla with relatives, was taken to the pest house yesterday morning as a smallpox suspect by orders of Dr. Chatten, our health officer. Orders were issued to clean up the premises of the Hecla family and isolate them until the case is fully determined. Earlinton has for some time been wholly free from this miserable disease, and its importation at this date is disheartening to the authorities and to our citizens. But our Health Board is ever alert and this infection will probably be stamped out without further spread.

## Buys a Home.

Elmer M. Orr, who has for several years past been connected with the L. & N. R. R. as agent and now holds the position of train dispatcher, has decided to make Earlinton his permanent abode and has purchased from Mrs. Kate Pike a nice residence on McEuen avenue. Mr. Orr and family will move to this new place in a short time and expect to add considerable improvements in the near future.

JESSE PHILLIPS.

Jesse Phillips, who was elected magistrate in this, the second magisterial district of Hopkins county, at the last election, has been especially honored by the people of this district, and his choice without opposition is a testimonial of the general high esteem in which he is held at home. Although the district is Republican by a good majority there was no opposition to Mr. Phillips' candidacy and his election is therefore in a manner unanimous. Mr. Phillips was first appointed by Gov. Beckham to fill out the unexpired term of Esquire F. B. Sisk, who was appointed road supervisor of Hopkins county. The recent election was to succeed himself. Not only did the Republicans permit his election without opposition but he received a nice little bunch of complimentary votes which put his name in the lead on the Democratic ticket in the district. Mr. Phillips is of English birth and parentage and was a coal miner in his young manhood. He was for some years engaged as a salesman in the St. Bernard general store at this place and resigned that position to accept a position as cashier of the Earlinton Bank, which position he now holds. Mr. Phillips is one of the most popular young men in the community and deserves the confidence reposed in him by his friends.

The chairman of the national committee of the Prohibition party claim that they have polled 300,000 votes for Silas Swallow, their candidate for president.

## ELLIS CRANER,

**A Coal Miner, Found Dead Along the I. C. Track Near St. Charles Friday.**

**WORKED AT DANIEL BOONE MINE.**

Ellis Craner, a coal miner employed by the Daniel Boone mine, was found dead along the Illinois Central tracks one-half mile from St. Charles Friday. It is supposed he was killed by some train passing in the night, as he was cold and stiff when found and his face and body badly bruised and mangled. Craner was seen in St. Charles Thursday and when last seen was walking in the direction of Daniel Boone on the railroad track, considerably under the influence of liquor. He was about forty years of age and leaves a wife and two children. Coroner Stevens was called and rendered a verdict in accordance with the above facts.

## MACHINE SHOPS

**Burned at Reinecke Mines Monday Night. City of Madisonville in Darkness. Damage \$6,000.**

**BUILDING PARTIALLY INSURED.**

Fire broke out in and consumed the machine and blacksmith shops of the Reinecke Coal Company near Madisonville Monday night. The damage amounted to \$6,000, only partially covered by insurance. The shops are located near the mine shaft. In connection with the mines the company maintains the city electric light plant. When the blaze broke out in an unused part of the blacksmith shop, workmen quickly shut down the lighting plant, leaving the city in utter darkness. The blaze could easily be seen from the main streets of the town, and the people were thrown into a wild state of excitement. The flames spread rapidly and the mine fire department was strained to keep the fire away from the buildings which covered the machinery used in operating the mines. Twenty miners had gone into the mines early in the evening. They were quickly taken out, it being feared that the air pumps would be burned. The men were slow in coming to the top, and members of their families stood at the entrance of the shaft weeping and praying for their safety. All the men were brought up without accident. The operation of the mines will not cease. The destroyed buildings will be rebuilt at once.

## COUNTY CLERK RESPONSIBLE

**If He Gives Certificate of Acknowledgment to Incorrect Deed.**

**AMOUNT INVOLVED MAY BE RECOVERED FROM CLERK.**

Frankfort, Ky., Nov. 15.—In affirming a judgment of the Hickman Circuit Court in a case of K. B. Samuels, County Clerk, against A. L. Brand, the Court of Appeals today ruled that a clerk is responsible where he gives certificate of acknowledgment to a deed to property which deed is incorrect, and that the amount involved may be recovered of him and his bondsmen.

The question involved came before the court here from a judgment holding County Clerk Samuels responsible for a deed procured by forgery. The deed was acknowledged in the name of his deputy, W. W. Craig, the Clerk giving certificate of acknowledgment as to the signature. It developed later that Craig's name had been forged to the document, and the purchaser of the property brought suit to recover the purchase price from the County Clerk and his bondsmen.

## THE COUNTRY EDITOR.

He is the hardest worked of men  
A busy chap is he;  
He wields the hatchet or the pen  
With great facility.  
He chronicles that "Beastie Brown"  
Has married William Goode—  
Then to the woodpile hustles down  
And splits a lot of wood.  
He writes two columns of advice  
To cure the people's ills  
Then dons his apron in a trice  
And prints a hundred bills;  
And if some customers then there  
Are,  
His inky hands he'll wash,  
And trade a year's subscription for  
A pumpkin or a squash.  
He states "Til Higgins is in town  
Upon a load of rye!"  
Then takes the upper cases down  
And fixes up the "pi."  
And when the "pi" is straightened  
out  
The furniture he dusts—  
Then sets a stick or two about  
The tariff and trusts.  
His paper cheers us every week  
—It does what e'er it can  
To keep the slush of Freedom's  
pen  
And save the right of man.  
So come, ye freeman of this land  
And let's be thankful for  
This bulwark of the nation and  
The country editor.

—Bardwell News.

## HOPKINS COUNTY SUFFERING

**from a Severe Drought—Cattle and Stock Suffering in Various Places.**

Hopkins county is at present undergoing a severe drought and at various places throughout the county cattle and stock are suffering for water. Water at Mortons Gap is scarcer than it has been for years and a large number of people are hauling their drinking and cooking water from the St. Bernard Co.'s pond near that place. Before this pond was dug the citizens of that little town were compelled to haul their water several miles. At Madisonville water is also a scarce article and a large number of wells and cisterns are dry. While it is true a portion of the town is supplied with water from the Reinecke pond, the majority have to haul their water from that and other ponds. At St. Charles the situation is about the same, and in fact all over Hopkins county the majority of country people are handicapped on account of a shortage of water and have to haul their water for miles in some instances. Earlinton is not in this class, however, as she has a splendid system of water works, and the pure water from Loch Mary is pumped into a large reservoir on a high hill and distributed all over the town. This lake covers nearly 100 acres and is the finest body of water in the county. Richland is one of the fortunate places, having abundant springs that supply water the year round.

## Married.

At the residence of Henry Clay Smith Tuesday night Miss Laura Smith and Mr. Henry Lawson, both of this city, were married, the Rev. Lester performing the ceremony. The bride was dressed in white, wearing a wreath of white chrysanthemums and white satin slippers. Miss Zada Clements played the wedding march. The friends of the parties wish them happiness.

Five women at Washington, D. C., are still drawing pensions as widows of soldiers who served in the war of the revolution, which ended 120 years ago.

Waste leather is no longer thrown away. Manufacturers use it in a compressed form, instead of iron, to make cog wheels.

The edge of a snow storm which visited the North and East struck Atlanta, Ga., Sunday morning. The fall was light, but heavier in the northern part.

# Ayer's

You can depend on Ayer's Hair Vigor to restore color to your gray hair, every time. Follow directions and it never fails to do this work. It stops

## Hair Vigor

falling out of the hair, also. There's great satisfaction in knowing you are not going to be disappointed. Isn't that so?

"My hair faded until it was about white. I took just one bottle of Ayer's Hair Vigor and it is now as dark, rich color. Your Hair Vigor certainly does what you claim."—A. M. BOGGS, Rockingham, N.C.

Put a bottle of Ayer's Hair Vigor in your medicine chest.

## Fading

### SHORT LOCALS

Shoes, winter underwear, pants, overalls, caps, work shirts, fancy shirts cheap. ADAMS & SULLIVAN.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in this preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years, and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect."

For sale by St. Bernard Drug Store, Earlington; B. T. Robinson, Mornings Gap; Jno. X. Taylor, Earlington.

Miss Carrie Crenshaw entertained the Owl Club at her residence on Main street last Thursday night. Light refreshments were served and the club had a delightful time.

Lost—Somewhere on the streets of Earlington a gold watch charm with chipped diamond on one side and baby's picture inside. Finder will return to this office and receive reward.

The woods are on fire in several places around Earlington on account of the long drouth. As yet they have done no great damage, however, and will be closely watched until extinguished.

The teachers' Bible class of the Southern Methodist Sunday school will meet with Miss Annie Ashby tomorrow evening at 7:30 o'clock. After the lesson the regular monthly business meeting of the Epworth League will be held.

Mr. John Rule led the prayer service at the M. E. Church, South, last Thursday evening; subject, Prayer. Subject tonight is Faith. Everyone is invited to attend and bring their Bibles.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

The Madisonville Book Club held its first meeting of the year last week with Emeline Browning. Mrs. Geo. Atkinson led the discussion of "The Louisiana Purchase," followed by talks from other members, and what interested them most at the World's Fair. Delicious refreshments were served.

The veteran bird hunters, M. B. Long, Lee Oldham, Tim Stone and N. I. Toombs, who have for the past five years gone hunting on the 15th day of November, went out Tuesday and killed 96 of the wary birds. This however was below the record for 1903, as they secured 105 on that day.

### Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—the great of all organs ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in the condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

A party of young people, consisting of Messrs. Blanche Edmondson, Richie Stone, Sue and Mayne Foard and the Misses Duffy, of Elkton, accompanied by Roy Henry, Roy Foard, Grover Long and Howard Blair, visited the Hecla mine one night recently. This was the Misses Duffy's initial trip in a coal mine and they enjoyed the novelty very much.

We are shortly to have an opportunity of hearing the young comedian, Harry Beresford, who has been compared by many of the dramatic editors throughout the country to such great actors as Nat Goodwin, John Drew, William H. Crane, and the late lamented Sol Smith Russell. This is certainly very flattering, and our local theatregoers should not miss the opportunity to go and see for themselves when he appears at Morton's Theatre, Madisonville.

### FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: 'A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and rub it on the child's chest, it would be cured. I gave it a quick relief and cured the baby.' This remedy is for sale by St. Bernard Drug Store, Earlington; B. T. Robinson, Mornings Gap; Jno. X. Taylor, Earlington."

Foley's Honey and Tar heals lungs and stops the cough.

## The Earlington Lyceum Committee

### The Best Liniment.

"Chamberlain's Pain Balm is considered the best liniment on the market," writes Post & Blais, Georgia, Va. No other liniment will heal a cut or bruise so promptly. For other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lumbago and pains in the chest. Give this liniment a trial and you will never wish to be without it.

Sold by St. Bernard Drug Store, Earlington; B. T. Robinson, Mornings Gap; Jno. X. Taylor, Earlington.

What you can find at Walden's for Thanksgiving:

Turkeys, Oysters, Celery, Cranberries, Nuts and Fruits. And the best line of staple and fancy groceries. Call and see me.

The laughable comedy-farce, "Our New Man," which is billed to appear at Morton's Theatre in the near future, with "that odd fellow," Harry Beresford, in the star role, should be seen by even our most occasional theatregoers, for all will find in it an entertainment which will give them something to laugh over for days after this young actor and his excellent supporting company have left. Mr. Beresford's acting has been spoken of as art in its truest sense.

Blankets and Comforts at J. M. Victory's at lowest prices.

Adelaide Thurston Coming.

The annual visit of the dainty comedienne Miss Adelaide Thurston has come to be looked upon by theatregoers as one of the chief theatrical events of the season. Miss Thurston's charming personality, joined to a captivating art, has served to engrain her in the affection and esteem of all those who have met her in private life or who know her only as an actress. Miss Thurston comes this season to Morton's Theatre Tuesday, Nov. 22, with a new play, "Dolly Primrose," a captivating comedy drama by Paul Wiltash. Miss Thurston is said to be delighted with her new role, which is said to be better suited to her manner and capabilities than any since her appearance as Lady Babble. The petticoat "saw" provided with a very handsome production and a company of the first order of excellence.

J. M. Victory's is headquarters for men's, youth's and boy's clothing.

Counterfeiting the Genuine.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by John X. Taylor.

The Owl Club met with Mrs. E. A. Chatten at her home on Main street Tuesday night and played ten games. Mrs. Fawcett won nine of these and was consequently again the champion, having the honor of wearing the handsome new medal two weeks in succession. The charming hostess served light luncheon at 4 o'clock, consisting of salmon salad, crackers and coffee. The club meets with Mrs. Southworth next Tuesday night and all members are warned to be present promptly at 8 o'clock or be fined.

Found. On the streets of Earlington a child's clock. Owner can have same by identifying it, calling at this office and paying for this advertisement.

## THANKSGIVING DAY.

There is one day in each year in which the American eagle must sit on a rear perch and feel that he is second bird in consideration. Thanksgiving day always brings the turkey into prominence and in reality he appeals to the stomachs of most of us the rest of the year.

On the 4th of July and on election day the eagle can scream and expect to be noticed but from that time on his stars descend and turkey stock rises. November brings us two holidays which we do not have to share with the people of any other nation, only those "with-in our gates" as both are truly American institutions. There are election and Thanksgiving. The first helps us to rights attendant upon life, liberties and the pursuits of happiness. The latter gives us reunions, joy and good cheer.

God has been good to us in many ways, then let us be both merry and thankful for we have reason so to be.

The pardon record of Lieut. Gov. Thorne is indefensible but the incident is overworked. If a man has committed an egregious error, but has repented, need he be met with a fresh club every time he shows his head? We have never, in his best days admired Mr. Thorne, but he deserves a chance to retrieve. He has been given sufficient punishment. Give him fair play and the rest of the world a rest.

A TELEGRAM from Bowling Green announces that William Henry Jones is elected to Congress from the Third district by a small majority upon the official count. Mr. Jones was the Republican candidate. He is a man of sterling worth and a hard worker and will now have opportunity to serve his constituents and discredit his traducers.

WORK of rock-surfacing our streets continues. This with our waterworks, and no saloons, our schools, churches, public libraries, electric lights, superior railroad service, exceptional telephone connections, progressive business men and industrious, thrifty citizens will soon make Earlinton the "best town on earth."

It is rumored that Roosevelt may have carried Arkansas. Returns have been withheld and mystery is mixed with the manoeuvres of the Democrats. If Arkansas has come along with Missouri when may we not expect the remainder of the "Solid South."

## Let Earlinton Do Likewise.

The City Council of Madisonville has passed an ordinance making it a fine of \$5 for one spitting on the pavement or on the floor of public buildings. It is not only dangerous to the health of the public, but unclean and disgusting to ladies who must walk around or step over on the pavement or floor of public places. Earlinton would do well to follow our sister city in this ordinance.

The Peoples party claim to have polled over 500,000 votes for Tom Watson for president. Eugene Debs will have 600,000 at the official count.

## LOCOMOTIVE BLASTS

### "RING AROUND A ROSE" TIME.

(William J. Bartscher in Evansville Courier.)

Life is full of pleasures from childhood to old age. And happy pastimes in which 'tis glorious to engage; But there's no occasion so esoteric and sublime As the young folks' peerless "Ring around a rose" time.

'Twas then I met a maiden with whom 'twas good to play. Who smiled so sweetly that I've loved her to this day;

'Twas then we hop'd around and round with her hand in mine— Back there in that good old "Ring around a rose" time.

'Tis now I often meet her, a budding rose in life.

'Tis now methinks I'll ask if she will be my wife; For something seems to whisper that she will not decline The chain who loved her in "Ring around a rose" time.

Last year 9,984 persons were killed and 78,247 injured on American railroads.

Paducah, Ky., Nov. 14.—Trainmaster Henry J. Scheuing, of the Paducah and Central City district of the Illinois Central, formerly of the Louisville Central, has been promoted to the position of assistant superintendent of this division, with headquarters at Evansville, Ind., having jurisdiction over the Evansville district. L. E. McCabe, traveling dispatcher, has been made trainmaster to succeed Mr. Scheuing, and is given an assistant, W. P. Barrick, the office of assistant trainmaster having just been created. Mr. Scheuing succeeds H. R. Dill, of Evansville.

Fireman William L. Pittman has resigned, giving for his reason that he desires to avoid high winds and high nine's this winter.

Logan Osborn, the oil-house man at Howell, is at the Fair this week.

A. J. Bruning, the foreman painter, has returned from his inspection tour over the L. & N. system.

Brakeman R. L. Griffith mashed his finger pretty badly the other day while unloading freight at Enfield.

Mail car No. 60 sustained considerable damage by fire in St. Louis Terminal yard on the 7th, which it is thought originated from the interior. The St. Louis fire department's prompt response probably saved the car from total destruction. The damage is estimated at about \$150.00.

Engineer J. B. Yount, who recently went out running, owing to the World's Fair business dropping off, has been put back firing.

T. L. Greer of Nashville, formerly engineer on this division, was in Evansville Thursday.

Mrs. Thomas Walsh of Howell, went to Montgomery, Ala., Thursday to visit her son and daughter.

Train No. 70, known as the Providence Plug arrived several hours late at Evansville one day last week, owing to an accident to a part of the motion work on the engine near Henderson.

Mrs. J. E. Long of Nashville, is visiting in Earlinton.

W. L. Weaver, of the Station Master's office at Nashville, has gone to firing on the St. Louis Division.

S. C. Shepherd, a painter on the line of road, has resigned to try his luck elsewhere.

Thomas Walsh is spending this week at the Fair with his son, F. O. Walsh, who is master mechanic for the Atlantic & West Point R. R., at Montgomery, Ala.

Lawrence Schang of Louisville, Ky., has accepted a position

the round-house at Earlinton as boilermaker.

Improvements to the extent of \$10,000.00 will be made in the Howell yards.

Mrs. W. D. Sargent of Guthrie, is visiting in Elkton this week.

J. H. White, machinist apprentice at Howell, who had served three years of his time, resigned the first of the week, it being his intention to go to Florida.

Engine 409 the Guthrie switch engine has been turned out of the shop, having had a general overhauling.

Al Reddix, the night watchman at Howell shops, was assaulted last Sunday night by three men while making his rounds. The giant of the trio struck him without warning, knocking him down, and jumping on him with his feet. In the scuffle Mr. Reddix' collar bone was fractured. The matter was at once reported to the Evansville police.

"What time will we get to Hopkinsville, Jack?" Thus a passenger on 51 last Sunday addressed flagman Kline a few minutes before departure of the train at Evansville. Mr. Kline did not reply until he had walked to the other end of the coach and returned. He said, "My name is not Jack, thank you!" "I didn't think it made any difference," responded the passenger. Mr. Kline gave the gentleman to understand that it did make a difference to him. After the passenger had received the information and Mr. Kline had left he was heard to remark, "Some people have brains and some have feet," but it would seem that in this case Mr. Kline had the brains and the gentleman from Hopkinsville the feet. We heartily approve the action of flagman Kline as the traveling public should understand that they must treat railroad employees with the same courtesy that they expect from them.

Letters of an Engineer to His Master Mechanic, No. 4.

Dear Sir—I have been in the worst of humor all day, as the boarding house lady made a remark at the breakfast table that I cannot forget. She said she desired everything about her place to match; that she wanted blocks in her matting, blocks in her linoleum, and blocks in her wall paper, as she had blockheads to cook for. Now wouldn't that knock the blocks from under the block system? I know you will think so, especially as you board there as well. Speaking about blocks, reminds me that the two 13 ran over a block of wood today near the spot where engineer Smoketask stalled with a light engine when I was track walker on the narrow gauge road, which is our rival. Otherwise had a good trip, except that we ran out of coal and had to stop and borrow some from a farm house two miles from the track. Yours truly.

## A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough and heals the lungs. Prevents pneumonia and will cure incipient consumption. Contains no opiates and is safest for children. Ask for Foley's Honey and Tar and insist upon having it. Stops the cough and heals the lungs. Sold by Jno. X. Taylor.

William T. Richards, while tearing down an old chimney of a log house that was over 100 years old on Quick's Run, a few miles from Mayfield, found a small tin box containing \$515 in gold coin. There was no name on that section who remembered the house originally built by the present owner.

## Are Your Boys Ready for School?

They may not be in the matter of inclination to go, but go they must. And they may be short of clothes. And here is where we can help you to get the boys ready; because a boy with good clothes on is much more willing to go to school than he would be shabby.

## School Clothes in Now.

The major portion of our Fall 1904 purchase is in stock now, and we are very, very willing—yes, anxious to show you their superiorities.

Our clothes are the good fitting kind. You want your boys to look tidy and comfortable in their clothes, don't you? We pay close attention to detail in our Boys' Clothing. You can look through a crowd of boys and pick out our suits. They fit like men's custom clothing. In our Boys' Coats you notice well padded shoulders, stiff front, sleeves put in right, and not the least important of all, a snug fit in the collar. They cost very little, if any more, than common, thrown together stuff, and your boy knows he is dressed right—that no city chap can look back over his shoulder at him.

If you want your boy to look better than the common run, buy his clothes of us.

An ad. in The Bee Reaches the People

**A Good Complexion.**  
"Soaking eyes and rosy cheeks restored by using Dr. Williams' Little Early Risers," so writes S. P. Moore, of Nacogdoches, Tex. A certain cure for biliousness, constipation, etc. Small pill—easy to take. Sold by St. Bernard Drug Store.

#### CHRISTMAS NUMBER.

The Bee, Energetic and Entertaining as Usual, Will Get Out a Double Illustrated Xmas Number December 15th.

This Bee will as usual get out a special double number Christmas edition this year. It will be sixteen pages with a handsome cover page illustrative of the occasion and will contain in addition to the regular news several Christmas stories and appropriate pictures. This number will be issued on Dec. 15th, thereby giving our advertisers an opportunity to place an advertisement in the best advertising medium in Western Kentucky. "THE EARLINGTON BEE," it reaches the people, it is read by thousands of people who have money to spend and who draw thousands of dollars in cash every month. If you want to increase your business, place an ad in this Christmas double number. "It pays to advertise."

#### A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes Dr. Williams' Little Early Risers: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief. I then commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Sold by Jno. X. Taylor.

#### Dinner Party.

Mr. and Mrs. Paul M. Moore entertained at "Oakmoor" a dinner party of Madisonville friends Tuesday evening, it being the eleventh anniversary of their marriage. The color scheme of pink was carried out in the decorations of cut flowers and in the menu. The guests were: Mr. and Mrs. Will C. Morton, Mr. and Mrs. Claude L. Ross, Mr. and Mrs. R. S. Dulin, Mrs. H. H. Holeman and Mr. Clint Ruby, all of Madisonville, and Mr. and Mrs. Jno. B. Atkinson, of this place.

#### Neuralgia Pains.

Rheumatism, lumbago and sciatic pain yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone and being absorbed into the blood, its healing properties are conveyed to every part of the body, and effect some wonderful cures. 25c, 50c, \$1.00. Sold by St. Bernard Drug Store.

## Try for Health

222 South Fourth St., CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Dr. Williams' Pink Pills. I told her I had not and she bought a bottle. I believe it saved my life. Several other women could have saved much suffering if they but knew of its value.

*Surgeon-General*

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist to-day?

**WINE OF CARDUI**

**PARKER'S HAIR BALM**

Clears and beautifies the hair. Promotes its growth. Keeps the scalp cool and healthy. Scented with the finest perfume. Made in the United States. Sold by all druggists.

## HEALTH is the Most Important

The manufacturers of Royal Baking Powder have had 40 years of scientific experience.

Every method of bread-and-cake raising has been exhaustively studied in this country and abroad.

The result is a perfect product in Royal Baking Powder. There is no substitute for it. The purity and efficiency of Royal Baking Powder have been commended by the highest authorities of the world.

These facts mean two important things to all housekeepers:

First: That Royal Baking Powder is healthful and makes wholesome food.  
Second: That Royal Baking Powder makes food good to taste.

**ROYAL BAKING POWDER**

**ABSOLUTELY PURE**

Mr. John Larnum had his ankle badly injured while working in No. 9 mine Monday night by being caught between some cars that were jammed against others standing on a partition.

#### Born

To Mr. and Mrs. W. W. Lee, of Princeton. Wednesday morning a fine baby girl weighing 9 pounds and J. R. Dean is for the third time a smiling grandfather.

#### BLIND MAN SEES.

Had Never Beheld the Face of His Wife.

A remarkable case of the restoration of sight occurred in this city a few days ago. F. A. Bliss, of Faith, Ky., a man about 35 years of age, had been totally blind from birth with cataracts on both eyes. He had a wife and two children whose faces he had never seen. Until he came here to consult Dr. A. H. Edwards, the surgeon, he would never consent to an operation. He finally agreed to be operated upon and the sight in one eye was restored. Mr. Bliss was so overjoyed that he insisted upon returning home at once to see the faces of his family for the first time. He will come back to have the other eye operated upon in the near future. His mind could hardly grasp the blessing that had come to him. That he, blind all his life, could be made to see by scientific means, was an incredible joy known to no bounds.—Hopkinsville Kentuckian.

#### Church Directory

**CHRISTIAN CHURCH.**—Sunday-school at 9:30 a. m. Preaching every Lord's day at 10:45 a. m. and 7:30 p. m. Prayer meeting every Wednesday at 7:30 p. m.

221-223 South Fourth St. with Cascares. No more constipation forever. 50c, 75c, \$1.00. O. C. Ball, drug store, returned money.

## MINING NOTES.

#### The Coal Mine Operators.

"To hit below the belt," "to strike in the back," "to jump on a fellow who is down," or "under your size," has always been in American eyes a capital offense for which Americans as a class have stood ready to inflict capital punishment. "Fair play" is the one splendid, admirable virtue in which our English speaking races have ever claimed to excel.

In assenting to this proposition all must recognize its pertinency to the coal industry, because of the paramount importance of that industry.

Coal being the orihinating motive power, and for practical purposes at the present time, the only motive power, it is more important than even the bread supply. Merely glance at the figures and see how much coal we produce in a single year. The facts are simply astounding. Of bituminous coal, we produced in 1902, approximately 225,000,000 tons, and in 1903 it is safe to estimate the production at 300,000,000 tons. Over one-half of this vast output was produced in two states—Pennsylvania and Illinois. The output of anthracite coal in 1902 amounted to 36,000,000 tons and in 1903 to about 65,000,000 tons, and this was produced, practically, by Pennsylvania. Thus it will be seen that the aggregate output of bituminous and anthracite coal in two states—Pennsylvania and Illinois—is much greater than the remaining coal output of the United States. Indeed, Pennsylvania produced in 1903 nearly one-half the nation's total output of coal.

It is simply bewildering to contemplate, not only how much depends upon the coal industry of the country, but upon the coal industry of only one or two of the states. The railroads of the United States are about the nation's arteries, and the mileage of these railroads is about 230,000 miles. Coal constitutes about 60 per cent of the freight hauled by them. Coal, therefore is not only almost its only fuel, but its most important item of freight. From an address at St. Louis, by Herman J. J. Mues, printed in November Mines and Minerals, Scranton, Pa.

The Rose Creek coal company have received their locomotive engine for hauling coal from the mines to the station and have begun work.

The St. Bernard Mining company are drilling a well 1500 feet deep and six inches in diameter at this place for testing purposes. All of the non-union coal miners employed by Irving H. Wheatcroft, at Wheatcroft, Ky., together with employees in other departments were taken on a free excursion to the World's Fair at St. Louis, October 27, returning to Wheatcroft Sunday morning, October 30.

The Illinois Central furnished a special train for the occasion, and took the entire party over its own lines, via Princeton, Paducah and Cairo, direct to the World's Fair grounds. Mr. Wheatcroft took his own private car "Kover," and invited a number of friends, who accompanied the party on the excursion.

The party arrived at the World's Fair grounds early on Friday morning, and stopped at the Inside Inn within the World's Fair grounds.

The expenses of the entire trip, including train fare, hotel accommodations, all entertainments and admissions, were paid by Irving H. Wheatcroft, who gave the trip as a free treat to his men. The men are all non-union miners, and other employees engaged by Mr. Wheatcroft during the summer, after he had turned all of the union men out of the works at Wheatcroft.

## News for the Farmer

### EARLINGTON CITY MARKET.

Corrected Weekly By W. C. McLeod.

Corn, per bushel, 90c.  
Meal, per bushel, 90c.  
Wheat, per bushel, \$1.13.  
Potatoes, sweet, per bushel, 80c.  
Potatoes, Irish, per bushel, 80c.

Light Curry Wool, 18c and 19c.  
Heavy Curry Wool, 14 to 18c.  
Eggs, per doz., 20c.  
Chickens, frying size, \$1.50 to \$3.00 per doz.  
Hens, \$2.50 to \$3.00 per doz.  
Turkey, 12½c.

Crimson clover is a valuable legume, but it is not adapted to wintering in the northern United States.

So many people, thinking it unnatural for hens to lay in the winter, make no effort to have them do so. We wish this time to say that this is unwise, as the money comes from winter-laying hens.

To get eggs at this time and during the late fall and early winter season, we should feed often and feed a heap. The heavy hen is the layer during the moulting season and immediately thereafter.

Begin now to call your flocks. Kill or sell all cockerels but those reserved for breeding as soon as they reach the broiler age. At the same time dispose of all undersized and crippled pullets. Give all the room and all the care to the best birds.

As soon as the weather begins to turn cold and insect food becomes scarce, an increased grain diet must be provided for the growing turkeys. A ration of wheat and corn is the best.

It is a good plan to put straw over strawberry plants in winter if you take it off early in the spring, tramping it down in the middles. This will help to preserve the moisture, and they need a great quantity of water in bearing season. Weeds and grass should never be allowed to grow in a strawberry patch.

The best hay for young, growing horses, is clover or pea-vines. It should be fed out and dampened and the ground-fed mixed with it. After the colts are five months old and are eating nicely and are broken to handle without trouble they may be weaned, if they have been properly cared for, they will fret very little.

If sweet potatoes are in a dry place after the sweat and dry be poured over the heap until all the interstices are filled, not a bushel will rot in a hundred bushels. It is better to bank the potatoes outdoors under a shed than to place them in a damp cellar.—Southern Agriculturalist.

For a single egg producing ration in winter there is no grain better than wheat. A mixture of good, sound, wholesome wheat and flaked oats makes an almost perfect grain ration for laying hens during the winter months. When you cannot have flaked oats use clipped oats if you can get them. The less hull of oats that hens are compelled to grind and masticate the better results will be obtained. Good ground wheat is valuable because it contains the raw meal, the gristle, the marrow and the best quality of egg forming material in the bone itself. It is the best kind of animal food when the price will permit of its use.

#### Taking Care of the Onions.

A subscriber asks how to care for onions after pulling, that they may keep well. I will tell how I treat mine. Soon after the time fall over I pull them out of the ground and leave spread out on the ground to air for a day or so. Then I gather them up, separating all the clusters, and spread them out on a floor in a loft or shed, where they will keep perfectly dry and get plenty of air. I

leave them here until time for storing things for winter, when they are put in a barrel in the cellar. I don't have any trouble with them, while many of my neighbors did until I told them how I treated mine. I think the main thing is to pull early and cure thoroughly before storing.—Farm Visitor.

The longest fence in the world is shown in that which has been erected by a well-known American cattle company along the Mexican border. It is seventy-five miles in length, and separates exactly for its entire distance the two republics of North America. The fence was built to keep the cattle from running across the border and falling an easy prey to the Mexican cowpunchers. Although it cost a great deal of money, it is estimated that cattle owned by the fence have been saved in one year to more than pay for it.

#### THE CORN SONG.

Heap high the farmer's winter's

Heap high the golden corn!  
No richer gift has Autumn poured  
From out her lavish horn!

Let other lands exult, gleam

The apple from the pinye,

The orange from its glossy green,

The cluster from the vine.

We better love the hardy gift

Our rugged values bestow,

To cheer us when the storm shall drift

Our harvest fields with snow.

Through vales of grass and meads

Of flowers,

Our plows their furrows made,

While on the hills the sun and

Of chance April played.

Let cattle withhold her goodly rood,

Let milks blight the eye,

Give to the worm the orchard's fruit,

The wheat field to the fly;

But let the good old corn adorn

The hills our fathers trod;

Still let us, for his golden corn,

Send up our thanks to God!

—John Greenleaf Whittier.

#### Good Suggestions.

Marketing the products in the best possible condition is where the profits are made.

A furrow passed through a wet place in the wheat field will often save an acre of wheat.

In planting out an orchard this fall do not plant out more than can be manured and cared for.

Farm life may be made a burden or a pleasure, according to the management of the home, the farm and the work.

Clean up the farm, and its value will be increased, and when it is cleaned and cleared it will cultivate more easily and cheaply.

The scrapings from the barnyard drawn out and spread on the meadow will help to protect the grass roots and bring a better crop next season.—Farm and Home.

Remember this: Hay in a small stack will have a much larger part ruined by rain and weather than in a large one. So if you can possibly make room in the hay mow, put the one or more small stacks left over.—Coleman's Rural World.

A farmer near Union City, Mich., amazes his neighbors by keeping apples, pears, peaches, grapes, etc., in their natural state for several years. He now has apples and grapes growing in 1901 which can hardly be distinguished from this year's product. He now gives out his method of preservation, which is very simple, as he has selected well-developed fruit with good stems, picks it carefully and sears the end of the stem with a lighted match. Then he wipes the fruit perfectly dry, places it in a piece of dry wrapping paper and lays it away in a moderately dry and cool cellar.

The Bath county farmers have sold 90 per cent of their entire burley tobacco crop to the independent burley tobacco growers' association, for the purpose of protecting prices for the product. It is announced that purchasing and receiving will begin at once.

#### Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup and it cured him. That was six months ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c, \$1.00. Sold by St. Bernard Drug Store.

## ATLANTIC COAST IS STORM SWEEP

New York Completely Isolated For Many Hours By The Terrible Gale.

TELEGRAPH LINES PROSTRATED WORSE THAN IN 1858 BLIZZARD.

Communication With the West Secured by Cable, Via Canada, Nova Scotia—Rail Road Traffic Greatly Impaired, and in Some Cases Complete Suspension was Found Necessary.

New York, Nov. 14.—New York is entirely cut off from the south and west by a fierce hurricane, accompanied by rain and snow, which is sweeping the Atlantic coast. Starting from Florida, Saturday night, the storm of wind and rain has come up the coast at almost cyclonic speed. Early Sunday morning it was central off Cape Hatteras, although its ever gathering force was felt far to the northward. Rain began falling in New York at 5 a. m., and in the morning changed to a wet snow. The wind, which had been blowing moderately, veered to the southeast, and shortly after noon the storm began blowing 75 miles an hour. At six o'clock Sunday night the local weather bureau noted a velocity of 42 miles an hour, which increased to 48 miles at 8:30 o'clock. The speed kept up for several hours. At ten o'clock the storm center was at Block Island, where the barometer showed a pressure of 28.2 inches. The wind was blowing 75 miles an hour. A Nantucket barometer was a trifle higher and the wind 60 miles.

Wire service out of New York is tied up more effectively than at any other time since the blizzard of 1858. The Western Union and Postal Telegraph Co.'s have no direct communication with cities further south than Baltimore, and all western points are cut off.

The Postal has been calling some of its urgent messages to Canada, N. S., from which point they are wired to Montreal, and thence forwarded to Chicago over Canadian Pacific wires. Shortly after noon the telegraph companies commenced to feel the effects of the storm. As wire after wire went down and city after city was lost, the repair men were called upon to bring to the day and heavy storm, it was dark before the full force could be mustered. Late in the afternoon it was reported that over one hundred poles along the Erie railroad had gone down, putting the New York, Buffalo, Chicago wires by that route completely out of service. Recourse for a short time was had to wires via Albany and Syracuse, but a few hours afterward the pressure of the ice on the wires carried them, poles and all, to the ground. The storm was thereby closing that service. The Western Union was able to keep open the way to Baltimore, Philadelphia, and most places in New Jersey, but business for other points, save New England, was only accepted subject to delay. Communication between New York and Boston was practically interrupted. The telegraph officials are unable to state the damage until they can communicate with the territory. It is estimated that repairs made Sunday night to make repairs, so that a few wires may be opened up to the south and west by the time the business could weather will help to protect the grass roots and bring a better crop next season.—Farm and Home.

The weather bureau Saturday sent out warnings advising sea captains to remain in port over Sunday. Some damage was done in and around New York.

Sunday night the ferryboat "Port Morris" running between College point and Ninety-sixth street, Manhattan, went ashore on a rocky ledge in Bowers bay. There were ten passengers and the crew aboard. Owing to the fierce downpour, the streets of New York were practically deserted. The high wind played havoc with the street signs, which fell in showers. Many windows were broken, and a few passersby were cut by the signs and flying glass. The full force of the gale was felt in the harbor. Several boats were anchored off Staten Island.

Late in the evening, a freight barge, apparently unloaded, was blown ashore during the height of the gale in Sandy Hook. The barge was a very bad position, with every sea sweeping her decks. The life savers were standing by, but were unable to board the wreck. The fate of the crew is unknown.

Later on, a tent occupied by 18 tubercular patients was wrecked by the wind, and the suffering people were exposed to the elements. They were removed to a hospital as soon as possible, a private tent being erected to shelter them. The fate of the crew is unknown.

#### A Busted Bucket Shop.

Boston, Nov. 12.—The pronounced rise in the stock market was responsible, Friday, for the suspension of the Federal Stock and Grain Co. of this city, one of the largest concerns of the kind in the country.

Pioneer Grain Merchant Dead.

Chicago, Nov. 12.—Wm. B. Fry, 61 years old, a pioneer in grain business in Chicago, was found dead on the floor of his office. Heart disease, it is believed, was the cause of death.

### THANKSGIVING WEEK FAIR

Thanksgiving Week at the World's Fair to Be a Notable One.

The Visit of President Roosevelt and Round of Colleague Football Games to Make Things Hum.

St. Louis, Nov. 15.—Thanksgiving week at the World's fair will be rounded off with a visit from President Roosevelt, and members of his family to Saturday, November 26. More than a score of colleges and universities have accepted invitations to participate in the exercises planned for the six days, and the season will be enlivened by many social functions, athletic events and special ceremonies. On Thanksgiving day, Thursday, November 24, all business will be suspended in St. Louis, and the populace will join in the exercises at the World's fair. Appropriate services will be held in observance of the event at Festival hall, and in the afternoon a football contest will be waged on the stadium grounds between the Haskell Indian school team of Lawrence, Kan., and the Washington university eleven of St. Louis.

For the six days of Thanksgiving week there will be a relaxation from study and an opportunity given to students and teachers to pay a final visit to the exposition. The period will be one exceptionally favorable for an educational rally and carnival of college sports and amusements, such as is planned. Information has been received that the Chicago board of education has given permission for all teachers in the city schools to attend the exposition during Thanksgiving week, and the committee on arrangements has provided special programmes for their entertainment.

### COLORED COLUMN

EDITED BY J. H. GOUGH.

Rev. R. Robertson, of Hopkinsville, was the guest of Joe Hargrove last week.

The first quartet of the C. M. E. church of Earlington was held Sunday by Rev. Warfield, presiding elder.

Prof. J. T. Moore, principal of Earlington school, went to Hopkinsville Saturday on business.

Doc Nichols visited Hopkinsville Sunday.

Bessie Hatcher is improving slowly.

Laura McClan, of Madisonville, was the guest of Georgia Wilson last week.

Henry Davis, of Hopkinsville, was the guest of William Clark and wife last week.

William Prentice, who has been sick for the last two weeks, is able to be out again.

Rendy Fox, of Hopkinsville, is visiting her mother, Bessie Casey.

Rev. H. H. Gordon, pastor of Mt. Zion Baptist church at Earlington, left Wednesday for Kansas City, Kan., to be gone ten days.

Rev. W. W. Dorsey, presiding elder of the Madisonville District, and Rofie Jackson, of Madisonville, were the guests of Abe Ausborn and wife Monday.

James Dunlap, who has been on the sick list for several weeks, is able to be out and at work again.

The Christian Endeavor at Zion church was well attended Sunday night.

Don't fail to attend the concert and feast at white Masonic hall on Thanksgiving day and night, which will be given by the A. M. E. Zion choir and stewardess board for the benefit of said church. Nothing will be left undone to make those happy who will attend. Dinner will be

An ad. in The Bee Reaches the People

ready at 12 noon. Lunch and meals will be served until 12 at night.

Quarterly meeting at the Zion church Sunday, Nov. 27 last. Rev. W. A. Walker, presiding elder, will be present and conduct the service.

The public is invited to attend the concert that will be given by the Mt. Zion Baptist Sunday school on the 25th of November. An elaborate program is being prepared for the occasion.

The brick work on the new Zion church will be finished this week and carpenters' work next week.

Sallie Wardes, of Henderson, is visiting her mother, Mrs. Hines.

George Holt, who does the heavy work at M. B. Long's restaurant, was in Madisonville Sunday visiting his best girl.

Geo. Holt and Buck McLeod are contemplating the purchase of a fine squirrel and coon dog from Crofton.

### HECLA NEWS—COLORED.

Lella Grady, of Mortons, who has been visiting relatives here, returned home Sunday and was accompanied by her husband, Gus Grady.

Mrs. Rosie was the guest of Mrs. Sam Quarles Sunday.

Estella Drake, of Earlington, visited Abell Bryant Sunday.

Frank Porter, of Mortons, was here Sunday.

Joe Rash and family have moved to Earlington.

Rev. J. H. White preached for us on last Sunday morning and Rev. Payford, of Hopkinsville, for us Sunday night.

Fannie Wright will give a opossum supper Saturday night at the church.

Rev. S. H. White went to Madisonville Saturday on business.

There is no doubt about meat being good food for making hens lay; but, as an exchange puts it, when feeding meat to hens do not use that portion which is fat. The object of feeding meat to hens is to supply them with nitrogen and not fat, as the grain contains all the fat and starch required by them. If the fat is fed, it does not assist in any manner to provide material for eggs, but rather retards than assists laying. Blood is excellent for fowls and can be easily fed to them by mixing it with their soft feed. The ordinary ground meat contains both fat and lean and sells for about 3 cents per pound, but as the meat is subjected to heavy pressure at a high temperature most of the fat is removed.—A. V. Meersch in Western Poultry Journal.

## What is This? Read and See.

There will be a Contest Entertainment given at the City Hall, Earlington, Ky.,

**Nov. 30, and Dec. 1,**  
 BY GEO. MILLER AND GREEN PERKINS.

This entertainment will consist of a grand Fish Fry. A prize consisting of \$5.00 will be purchased from the Company store and will be given to the best moving couple present.

Delightful music will be furnished by Bud Ward and Harry Ray, the well known musicians.

Earlington pick your judges, Madisonville pick your judges, Morton's Gap pick your judges, Hecla pick your judges, St. Charles pick your judges.

Come one and all, large and small and have a good time.

Prices: For Couple, 25 Cents.  
 For Single Persons, 15 Cents.

## EDUCATIONAL DEPARTMENT

### Daily Reviews in History.

It is a known fact that pupils dread reviews, and most especially in history. I have known of pupils often staying at home on review days in order to miss what they called the "trying ordeal." When I first began to talk about a daily review they nearly all opened their mouths in astonishment, and I caught the whispered exclamations of "Horror!" "Abominable!" "Cruel!" etc. But after a few days they all liked the review better than any part of the exercises. This is how I managed it.

I had each member of the class bring a question at recitation pertaining to some part of the history already gone over. These questions I had them write on slips of paper with their names signed. Taking the slips I distributed them around the class, being careful not to give the question to the questioner. Then I had the receivers read their questions aloud. If there was more than one question pertaining to the same event, I would have the others changed for new ones. On the morning I would have the pupils bring their questions back and let them read the question and recite orally the answer. If they could not find the answer, I would let the questioner tell where the answer was to be found in the book. Then I would have the one holding the question read the answer. Also I would have new questions brought up today to be answered tomorrow.

It is strange how soon the pupils will become interested in this kind of review, when before they had so greatly abhorred even the word review.

If the history in use has a list of questions, it is best to have the pupils try to get questions not included in the list.

### Arithmetical Sanity.

The superintendent should go through the arithmetic in use with a blue pencil. He should see to it that problems involving large numbers are not too numerous, that greatest common divisor as a special topic is thrown out, that lowest common multiple is put into addition of fractions, that longitude and time is turned over to geography, taxes, duties and customs to civil government, and that a vast amount of matter commonly given in denominate numbers is forcibly ejected. Thus all of addition, subtraction, multiplication and division of compound and denominate numbers should be marked delete, as also all problems which involve quantities expressed in more than two denominations. Such a problem as, Reduce 2 mi. 30 rd. 5 yd. 2 ft. 5 in. to inches is as absurd as Munchausen history. It is evidently the product of some schoolmaster's disordered invention, and not of actual experience. Such, however, is the force of custom that numerous problems of this type are to be found in most arithmetics to this day. In actual life most quantities are expressed in one denomination, some in two, and a few in three, but none in five. The superintendent should draw his blue pencil through all the tables of denominate numbers, except avoirdupois weight and linear, square, cubic, dry and liquid, and time measures, and all problems under them.—Journal of Education.

### Tardiness.

In our own school the teachers were getting really alarmed over the tardiness which was increasing each year. We tried rewards and penalties of various kinds, but this did not seem successful. We felt that if we could once rouse public sentiment in favor of punctuality our trouble would be over, as public sentiment is the only effectual governing force. Finally we adopted this plan, which has been most successful.

With the consent of the school board, each teacher promised to her pupils a holiday, after 40 days had passed, in which no scholar had been tardy. These days need not be consecutive. I reserved one corner of the blackboard for my record. At

the end of each day, when no scholars had been tardy, I chalked up a white star. The children grew to watch for the stars with the greatest interest and would count them each day. When we had 20, or half the required number, I marked a large red double star. We generally had three of these star holidays a year, as it was not often possible to get more than 40 stars in one term. With the best intentions, sickness, necessary delays, or differences in clocks, occasionally made a child tardy.

### School System Overcrowded.

The idea of introducing cooking and sewing lessons into the public school system! The whole thing is a stinging criticism on the home of today. Where did the mothers of today and the mothers of yesterday learn to cook and sew? At home. They went home from school and helped get supper instead of galavanting down town to make goo goo eyes at the boys and gaze into store windows. They did the same thing at noon and they knew what was going to be on the breakfast table before it was displayed. The got up and helped get it, instead of sleeping off a dance of the night before until called to get up and help eat it.

The item has long taken issue with the timorosity that is to be found in our present day school system. And we are not alone in our protests. Our school system is overcrowded, clogged up, packed, jammed, full of things that have no business there, and are placed there and kept there at the expense of things essential.—Richmond Item.

KATE GREER, Teacher.

The Second District Teachers' Association will convene at Hopkinsville on November 25 and 26. The sessions of the associations will be held in the Methodist church. A very fine program has been arranged for the occasion and some of the best known educators of the State will deliver addresses. Union county will be well represented at the meeting.—Uniontown Telegram.

A teacher in an east side school in trying to explain the meaning of the word "slowly" illustrated it by walking across the floor. When he asked the class to tell him how he walked, a boy at the foot of the class shouted, "Bow legged, sir."

"She came upon him unawares," read the teacher. "Can any little boy or girl tell me what 'unawares' means?" Up went the hand of the youngest pupil. "I know!" he cried. "It's what we wear next to our skin."
